## A MAN OR A MOUSE?

"Are you a man?" Thus she began.  
"Are you a mouse?"  
She rules her hub, who is a dub.  
She rules the house.  
Her hubby heard, but spoke no word.  
He couldn't speak.  
He couldn't shout, he just let out  
A feeble squeak.

## SHORTAGE OF LABORERS AT THE DAM

The shortage of labor all over the country is also being felt in Maysville and vicinity. The Bates and Rogers Construction Company, which has charge of the construction of the Government dam just above this city, is in need of several hundred men and are advertising in newspapers with a radius of one hundred miles of this city for laborers.

## PATRIOTIC MASS MEETING AT THE WASHINGTON SUN-DAY NIGHT

A patriotic mass meeting will be held at the Washington Opera House next Sunday evening, October 7, which will be under the auspices of the Kentucky War Work Council. This meeting will be in the interest of the Y. M. C. A. work at the military cantonments all over the country and especially Camp Taylor, Louisville, where a large number of Maysville and Mason county boys are now located, and others will follow soon. Show your patriotism by boosting this meeting.

We wish to call the attention of our readers to the large display advertisement of Mr. Fred "Brownie" Arn on the third page of this issue of the Ledger. Mr. Arn is a candidate for City Clerk and he makes an appeal to the voters of Maysville to give him their support at the November election.

Attention is called to the display advertisement on page two of today's Ledger giving the merits of "Neposec" floor covering, which is now being sold by Melvain, Knox & Diener, the East Second street furniture dealers. Housewives will do well to read this ad.

Quite a few from this city are attending the trots at Lexington this week.

## SUN SPOTS

Remarkable Phenomena Visible Here Last Night and This Morning—Cause of These Remarkable Appearances Unknown.

Two sun-spots or "sun dogs" were plainly visible in this section last night in the west and this morning in the east. Sun spots are dark patches on the sun, varying in size from a minute telescopic object to vast areas visible to the naked eye and thousands of miles in diameter. Sun-spots have an interesting history. Galileo was charged with blasphemy because he called attention to them, and Stanley Jovons, the British economist advanced the theory that sun-spots and money-panics had some relation to each other. Certain it is that the well-known "cycle" of sun-spots and "cycle" of panics have been, in the past at least, coincident. The regular period of sun-spots is about eleven years, that is, every eleven years the spots on the sun are abundant and in the intermediate time they decrease in number and even vanish. The same has been true of panics. The great sun-spot of March 5, 1873, was 100,000 miles across. In this terrific cavern four planets each as large as our earth could have been swallowed up. The year 1906 was a maximum year for sun-spots, but Jevon's law seemed to have failed, except in England, where, during that year, the most painful industrial depression was experienced.

The causes of these remarkable appearances on the sun's surface are not known, although it is pretty certain that they are really comparatively shallow depressions on the photosphere, the darkness being due to the absorption of light occasioned by the lower temperature within the depression. Numerous spots appear to grow and disappear, lasting from only a few hours to many months. A great group of smaller spots often coalesce and form a great spot. That they have some connection with the sun's rotation on its axis is shown by the relation of the spot zone to the equator, being most numerous in latitudes from 15 degrees to 20 degrees. It has been held that the aurora borealis, or northern lights, are caused by sun spots, and on several occasions unusual disturbances of this kind in the sun have been accompanied by startling magnetic and electric storms on the earth.

## NO CONVICTION

Walter Lewis, Colored, Tried in Police Court Yesterday For Having Liquor in His Possession For Purpose of Sale — Jury Fails to Reach Verdict.

Walter Lewis, colored, was tried in Police Court yesterday afternoon before a jury composed of Messrs. L. M. Cavendish, John Furlong, John D. Wood, R. C. Nash, W. R. Warder and Harry Barkley, he being charged with having intoxicating liquor in his possession for the purpose of sale. After hearing the evidence of Chief of Police James Mackey and Officers Drennan and Stewart, the jury was closeted for about forty-five minutes and then announced that no decision could be reached.

When arrested Saturday night Lewis had in his possession 51 half pints of whiskey and one pint bottle. He said he had purchased the liquor for his own use, but Chief Mackey decided otherwise and placed him in jail, preferring charges against him as mentioned above.

Lewis will be tried again on this charge within the next few days.

Farmers & Planters Warehouse Company Changes Hands—New Concern Incorporated and Capital Stock Placed at \$25,000.

In the Mason County Court yesterday articles of incorporation of the Farmers & Planters Warehouse Company were filed, the capital stock being placed at \$25,000, which will be divided into 500 shares of \$50 each.

This is a new concern that will take over the interests of the old Farmers & Planters Warehouse Company. The incorporators are A. L. Powers, W. Holton Key and A. M. January. As Mr. Powers is going to move to Maysville from Louisville, this will make the company a strictly local concern.

Most of the stock of the new company has already been sold to Maysville and Mason county business men and farmers, so that it will be a strictly local concern. The limit of indebtedness under the articles of incorporation is \$50,000.

## FALSE NEUTRALITY

Though at war with Germany, the United States has thus far maintained neutral status with regard to Germany's allies. It is questionable whether it is possible, or wise, to maintain it much longer.

It's all very well for us to preach and practice neutrality toward Austria-Hungary, Bulgaria and Turkey. But unfortunately those countries are neither preaching nor practicing neutrality toward us.

The moment we begin participating actively in the conflict we shall discover that they are, to all intents and purposes, our enemies in the same sense as the Germans are. They are all fighting the same war, for the same purposes, under the leadership of the German Kaiser. The domain of Prussianism extends from the North Sea to Mesopotamia. All the governments and peoples of that far-flung realm of frightfulness are banded against us in a criminal league to steal, murder and destroy.

They are not merely enemies of civilization in general. As willing tools of Hohenzollernism, they are active enemies of America. Every Austrian or Bulgarian or Turkish soldier in the field on any front is releasing a German soldier to fight against us. And before we have been long in the war, our troops will almost certainly face Austrians, Bulgarians and Turks on the battle front.

There's another aspect, too, that should not be overlooked. Today the American people stand amazed and scandalized at the cumulative proof of German diplomatic perfidy against this country committed while we were still at peace with Germany. Today the diplomatic representatives of two of Germany's allies are still in Washington, enjoying the safe freedom that Bernstorff enjoyed when he was filling the land with spies and bribes. Does anybody imagine that these "neutral" diplomats are serving anybody but their Prussian over-lords? That they are anything but secret agents for Berlin?

It is time to stop this force. Let us at least send home the representatives of Bulgaria and Turkey for our own protection.

## VIOLATED ELEVEN COMMANDMENT

The explanations and apologies from Berlin for Count Luxburg's misuse of the Swedish diplomatic privilege in the Argentine go to show that the only crime which Luxburg has committed in the eyes of his superiors is that of getting found out. He violated the eleventh commandment, which has been held valid in all ages, from the days of the Spartan lad who held the stolen fox beneath his mantle until the animal had clawed the lad's vitals out, down to the most recently exposed of German diplomats.

## TIME FOR OTHER PEOPLE'S BUSINESS

The Treasury Department has been way behind in the issuance of the bonds for which the American subscribed several months ago; it has been behind in the payment of accounts due contractors; it was so rushed that it printed 2-cent stamps with the numeral "5" inserted—in fact it has never been able to catch up with its own work, but has plenty of time to usurp the law-drafting duties of Congress. Strange world, isn't it?

One young man who wants to be original, or to poke fun at the average exemption seeker, claims that he ought not to be sent to war because fourteen bar-tenders are largely supported by his thirst.

## TODAY'S EVENTS

Stockholders of the Alabama Great Southern Railway hold their annual meeting today at Birmingham.

The National Swine Show, the largest exhibition of its kind in the country, opens today at Omaha.

Today has been fixed by the War Department as the date for summing another large contingent of draft forces for the National Army. Secretary of the Treasury McAdoo is scheduled to speak at Madison, Wis., today in the interest of the second Liberty loan bond issue.

The annual convention of the New Jersey societies of the Christian Endeavor Union is to meet at Bridgeton today and will continue in session over Saturday.

Plans to enlist women in agricultural work to meet the nation's necessities during the war will be considered by the National Woman's Farm and Garden Association at its annual convention to be held today in Chicago.

A political working agreement among the Prohibitionists, Progressives, Socialists, Single Taxers and union labor is said to be the purpose of a conference to be held today in Chicago. There will be 100 delegates, 20 from each contingent, and they will meet behind closed doors.

## SAVE SKIM MILK FOR HUMAN BEINGS

Although skim milk is recognized as having great value in feeding animals, the United States Department of Agriculture points out that its value as human food should be kept in mind. By substituting grain, green feed, buttermilk, and when in animal feeding, much skim milk may be left for human use as a beverage, in cooking, condensing, or for making cottage cheese. Only the surplus of this valuable human food should be fed to stock.

While skim milk is good for stock, the fact remains that its highest efficiency can not be had through turning it into meat. Skim milk is used most economically in animal production

## PAINS SHARP AND STABBING

Woman Thought She Would Die. Cured by Lydia E. Pinkham's Vegetable Compound.

Ogdenburg, Wis.—"I suffered from female troubles which caused piercing pains like a knife through my back and side. I finally lost all my strength so I had to go to bed. The doctor advised an operation but I would not listen to it. I thought of what I had read about Lydia E. Pinkham's Vegetable Compound and tried it. The first bottle brought great relief and six bottles have entirely cured me. All women who have female trouble of any kind should try Lydia E. Pinkham's Vegetable Compound."

Mrs. ETTA DORION, Ogdenburg, Wis. Physicians undoubtedly did their best, but often the most scientific treatment is surpassed by the medicinal properties of the good old fashioned roots and herbs contained in Lydia E. Pinkham's Vegetable Compound. If any complication exists it pays to write the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special free advice.

when fed to hogs, yet it takes 20 pounds when fed alone to produce 1 pound of pork. The same quantity will make 3 pounds of cottage cheese. In addition, cottage cheese contains 1 1/2 times as much protein and one-third as much energy as pork, so that the skim milk in the cheese form gives quite as much energy and 4 1/2 times as much protein as it would if converted into ham or bacon.

Even at the highest prices recently paid for hogs, skim milk fed to them is worth not more than 1 cent a pound. Yet 1 cent a pound or approximately 1 cent a pint, is very cheap for any human food, and particularly for a food so high in nutritive value as skim milk.

## "THE RANCH WITH A HUNCH"

Mr. John Fleming Pogue, Former  
Mayor of Ramona, Now in California,  
Writes Poem About  
His Ranch.

The Ramona Sentinel published at  
Ramona, San Diego county, Cal-  
ifornia, contains the following:

Mr. John Fleming Pogue, the recent  
purchaser of the big Monteito Ranch,  
comes out in this issue with a poem of  
optimistic tone, and he starts out by  
saying "We're bound to beat it out  
with the hunch," and closes with the  
sentiment, "Put your paw right  
there." Mr. Pogue and his estimable  
family came here from Cincinnati,  
Ohio, in which city they are known  
among the heavy merchandising  
class. Since coming to Ramona the  
Pogue family have rapidly become a  
part of our community, and have en-  
dared themselves to us through their  
courtesy as well as through their  
kindly attitude toward our matters of  
a public nature. They are showing  
their disposition to do things worth  
while, for besides farming their own  
big ranch they have under lease five  
hundred acres of the Santa Maria  
Rancho, and the vast acreage will be  
plowed with a big tractor which has  
been purchased by Mr. Pogue. Their  
vim and energy and effort to help us  
do things all look mighty good. Sure,  
there."

Following is the Poem:  
The Ranch With a Hunch  
"Perhaps it may turn out a sang,  
perhaps turn out a sermon"—Burns.  
Say stranger, have you heard of the  
Monteito Ranch,  
Which the same it is the ranch with  
a hunch?  
While we started rather late, yet  
we're growing, root and branch,

And we're bound to beat it out with  
the hunch.

O, we only mean it all in the fairest  
part, old pard—  
For we didn't come out here to have  
a fight—

Still we sure are going some, and the  
going's rather hard;  
But we're doing what we do with  
our might.

For you see the way to win is to will  
it strong, h'gosh!  
To go for everything there is in  
sight—

To put it like a shot; put the others  
on the ki-bosh;  
Which you know gener-ally means  
a fight.

Well, we're here to win, we say—by  
all the means that's fair;  
Then here's our hand before the  
game begins;  
Sure! We mean it as a friend,—so  
put your paw right there;  
God's blessing on whosoever wins!

"Tis just a bit of greeting, to our  
neighbors far and near,  
Just to show our heart is on the left  
hand side;  
Come and see us if you can—don't  
you ever have a fear

But you'll find the door is open very  
wide.  
O! the world is weary, with its bick-  
ering and strife;  
Say—we never started out to preach  
a sermon

Still the sermon sure creeps in, for  
such we find it life;  
And the ranch with a hunch may  
pass as one.

JOHN FLEMING POGUE.

## ARGENTINA WILL NOT BREAK WITH GERMANY

Washington, October 1.—All expec-  
tations that Argentina might follow  
the lead of her neighbors and break  
with Germany have been dispelled  
here with the news that President  
Izooeyen is determined not to heed  
the action of the Argentine Congress  
and popular demand for action and  
will continue a neutral course. His  
suggestion that all South America  
determine her war course by a joint  
conference is not expected to bear  
fruit, because a similar proposal was  
rejected by all the other more im-  
portant Governments some time ago.

## VINOL MAKES WEAK WOMEN STRONG

Positive—Convincing Proof  
We publish the formula of Vinol  
to prove convincingly that it has the  
power to create strength.

It Cod Liver and Beef Testones, Iron  
and Manganese, Potassium, Iron and  
Ammonium Citrate, Lime and Soda  
Glycerophosphate, Cereals.  
Any woman who buys a bottle of  
Vinol for a weak, run-down, nervous  
condition and finds after giving it a  
fair trial it did not help her, will  
have her money returned.  
You see, there is no guess work  
about Vinol. Its formula proves  
there is nothing like it for all weak,  
run-down, overworked, nervous men  
and women and for feeble old people  
and delicate children. Try it once  
and be convinced.

## DUST AND VISITORS

Were Features of the Day at Camp  
Taylor, Louisville, Sunday.

Louisville, September 30.—Swirling  
clouds of dust and thousands of pe-  
destrians were competitive visitors at  
Camp Taylor today. The pedestrians,  
however, outstayed the former, and  
were rewarded with a pleasant after-  
noon with friends, acquaintances and  
relatives.

Only brief routine was followed to-  
day, including for the first time gen-  
eral muster, regiment by regiment.  
Afterward more than half the soldiers  
on the ground were excused from duty  
and several thousand came into  
Louisville for an after visit.

Religious services were held at the  
camp this morning, mass being held  
at the Knights of Columbus building  
and Bible services at the Y. M. C. A.  
One hundred and seventy new  
buildings will rise at the camp this  
week on additional acreage just ac-  
quired. One thousand additional men  
will be put on the work tomorrow  
morning.

## REVENUE ASSIGNMENTS FOR OCT. TOBER

The following local revenue assign-  
ments have been made for October:  
H. E. Pogue Distillery Company;  
W. C. Slye, storekeeper-gauger in  
charge; J. A. Breslin, additional.  
J. H. Rogers & Company; F. W.  
Hirring, storekeeper-gauger.

## NEGRO MEN TO BE MOBILIZED OCTOBER 3

Washington, October 1.—With plen-  
ty of room available at the national  
army cantonments, due to the large  
number of men to be withdrawn to  
fill up the national guard and other  
branches, the War Department has  
again modified its plan for training  
negro troops for the national army  
forces. It is now the purpose, Sec-  
retary Baker said today, to train a  
complete unit of negroes at each of  
the sixteen cantonments, instead of  
training them only at cantonments to  
which a considerable number report.  
The size of the units will depend up-  
on the number of negro drafted men  
from the divisional areas which sup-  
plies each cantonment, but where  
there is a large surplus men will be  
sent to the posts with small numbers  
for consolidation with the units there.  
The first of the drafted negroes will  
be mobilized under the call of October  
3. The number to be taken from each  
division will not be uniform and the  
allotment has not been announced.

## WANT WICKETS DOWN AT PITTS- BURG

Pittsburg, Penn., October 1.—A re-  
quest has been received by the local  
United States engineers to let the  
wickets down on the dams in the  
upper Ohio Valley, so as to give a  
stage deep enough to transport about  
1,000,000 bushels of coal from the  
Kanawha River to points between  
Gallipolis and Cincinnati. The mat-  
ter will likely be decided today, al-  
though there appears to be a belief  
among river men that the wickets at  
the Beaver and Davis Dams would  
not be lowered for the present.

The river men report a big fleet of  
loaded Kanawha coal barges at Point  
Pleasant, W. Va., and Huntington, W.

Va., awaiting a rise in the Upper Ohio  
River to float to Cincinnati and other  
points between Huntington and Cin-  
cinnati.

ident of the Grand Trunk Railway.

greatest living authorities on trade  
unionism and social and industrial

## GOOD HACKS FOR BAD

Maysville Residents Are Learning  
How to Exchange the Old Back  
For a Stronger One.

Does your back ache, feel weak and  
painful?  
Do you suffer headaches, languor  
and depression?  
The kidneys may be calling for  
help.  
Weak kidneys cannot do their work.  
Give them the help they need.  
To cure a kidney backache you must  
cure the kidneys.

Use a tested and proven kidney rem-  
edy.  
Doan's Kidney Pills have stood the  
test.

Convincing proof of merit in Mays-  
ville endorsement:  
Mrs. M. Holliday, 221 W. Second  
St., Maysville, says: "At times, my  
back has ached across my kidneys. My  
kidneys have been irregular in action  
and I have had dizzy spells and head-  
aches. I have always used Doan's  
Kidney Pills, getting them at Wood &  
Son's Drug Store, and they have never  
failed to relieve these complaints."

Mrs. Holliday is only one of many  
Maysville people who have gratefully  
endorsed Doan's Kidney Pills. If your  
back aches—if your kidneys bother  
you, don't simply ask for a kidney  
remedy—ask distinctly for DOAN'S  
KIDNEY PILLS, the same that Mrs.  
Holliday had—the remedy backed by  
home testimony. 60c all stores. Pos-

# FRED ARN

The Workingman's Candidate For CITY CLERK

SAYS: The workingmen of Maysville should be represented in the City Government at all times. If the taxpayers of Maysville will honor me with their support, I promise to faithfully perform my duties at all times and to make an itemized record of every penny of their money that is paid out. The MISCELLANEOUS accounts paid out of the Treasury for the month of September is something like \$140.00. This is no reflection against anyone, but business is business.

HOW ABOUT IT, MR. TAXPAYERS?

## THE DAILY REMINDER

In The Day's News  
Virgil G. Hinshaw, the leading spir-  
it in a conference called to meet in  
Chicago today with the object, it is  
said, of bringing about a political  
working agreement among the Pro-  
hibitionists, Progressives, Socialists,  
Single Taxers and union labor, is the  
chairman of the national committee of  
the Prohibition party. Mr. Hinshaw  
is a native of Iowa and was gradu-  
ated from Penn College in 1900. For  
four years he traveled in the interest  
of the Intercollegiate Prohibition As-  
sociation. From 1906 to 1908 he at-  
tended law at the University of Minne-  
sota. Then he became president of  
the Intercollegiate Prohibition As-  
sociation and traveled for two years  
promoting its interests. Later he set  
up a law office in Portland, Ore.,  
where he was making his mark when  
summoned to the position of chairman  
of the national committee. In this of-  
fice he has been singularly successful  
in raising funds for the party.

## SHIPPING TOBACCO FROM OHIO AND KENTUCKY BY ALL WAT- ERS TO EUROPE

In reply to an inquiry about ship-  
ping tobacco down the river to New  
Orleans for France, Mr. J. M. Buck-  
ner of Louisville writes the Manufac-  
turers Record:  
I am in possession of your esteem-  
ed favor of August 30, which would  
have been answered sooner, but I  
have been away for five weeks.  
I note that a bulletin recently is-  
sued by the Food Administration  
makes the statement that I sold 40-  
600,000 pounds of tobacco to the  
French Government which was ship-  
ped by water to New Orleans and  
thence to France.  
This is partly the truth. I did sell  
to the French Government even more  
than 40,000,000 pounds of tobacco as  
I have been their representative here  
for a year.

My reason for shipping the tobacco  
by water was that I bought the to-  
bacco all up and down the Ohio Riv-  
er, from Cincinnati to Cairo and in  
Indiana tributary to the Ohio River.  
The great car shortage last spring  
necessitated my making arrange-  
ments to get this tobacco to New Or-  
leans by water. As we had vessels  
there to load the tobacco for France,  
and as the railroads could not furnish

cars and as the French Government  
needed the tobacco in order to keep  
their factories going in France, I was  
compelled to get the tobacco to New  
Orleans to catch these steamers; so  
I arranged with the Inland Naviga-  
tion Co., at St. Louis, which has steel  
barges propelled by gasoline engines,  
each barge taking from 600 to 900  
bbls., to take this tobacco to New Or-  
leans. When the tobacco arrived in  
New Orleans in some instances it  
went along side of the steamer and  
was loaded from barge to steamer,  
that is, if the steamer was ready to  
receive the cargo, and when this was  
not done the cargo was taken off the  
barges and loaded on the docks pend-  
ing the arrival of the steamer.  
I ship large amounts of tobacco all  
over the world and am working to try  
to assist the river traffic and not be  
compelled to depend on the railroads.  
This steel barge left Paduch on Fri-  
day morning and arrived at New Or-  
leans the following Monday, being  
only four days; in fact, it made bet-  
ter time than a freight train, and the  
great advantage was that all the car-  
go arrived at one time and could be  
checked by the shipping clerks much  
easier when it was loaded on the ves-  
sels than it could have been checked  
if it had been shipped by railroads,  
as the cars arrive at different times.  
I see no reason why the river traf-  
fic should not be encouraged on the  
Ohio and Mississippi Rivers, in fact,  
it looks like to me the Government is  
not on the job and the railroads are  
holding up the shippers.

## Protection from Contagion

Owing to its antiseptic properties,  
20 Mule Team Powdered Boric can-  
not be too highly recommended for  
liberal use in the care of the per-  
son whenever and wherever exposed  
to any contagious disease. It may  
be applied as a powder or with wa-  
ter as a solution.  
It may be used with absolute free-  
dom and safety in all the natural cav-  
ities of the body; physicians almost  
always prescribe it as an eye water,  
mouth wash, etc., and wherever in-  
troduced the antiseptic action is cer-  
tain, but there is no danger from its  
use as there is with some other dis-  
infectants. Insist upon having the  
original package of 20 Mule Team  
Powdered Boric and then you know  
that you have the real article full  
strength. All leading druggists.

I expect to handle large amounts of  
tobacco next year for various govern-  
ments, as I will probably represent  
France and Sweden and sell consider-  
able tobacco to Spain, also large  
amounts to Denmark and Norway,  
and it is my intention to have factor-  
ies located on the river front where  
I can have the barge stop in front of  
the factories and load the tobacco  
from the factories direct into the  
barges.

## TURKISTAN SCENE OF NEW OUT-BREAK; FORTRESS SEIZED

Petrograd, Monday, October 1.—A revolutionary movement is in progress at Turkistan. General Cherkess, commander of the district, has been attacked and beaten. A temporary revolutionary committee has been organized to take all power. Parts of two regiments joined in a counter revolutionary move.

The minister of the interior says he is not alarmed and is confident the disturbance will soon be quelled. Government dispatches describe the Turkistan revolt as increasingly serious. Irresponsible elements among the troops have obtained control of the military and seized the officers. The people are in a panic. The semi-official news agency issued the following statement on the Turkistan situation:

"Political agitators, with the support of two local regiments, took over the administration of Tashkent (capital of Russian Turkistan) and announced that they no longer recognized the provisional government."

## THIRD CONTINGENT OF NATIONAL ARMY WILL START TODAY

Washington, October 2.—The third contingent of National Army men will begin moving tomorrow to the sixteen cantonments where approximately one half of the 687,000 selected men called out by the President already have been mobilized.

Modification of previous quota plans was necessary because of the conditions at the cantonments and the availability of equipment. Some cantonments are much farther advanced than others and can accommodate a larger per centage of men.

Definite figures are still lacking as to the number of selected men to be transferred to the National Guard, aviation service, medical corps or other branches of the army that will have to be filled up to war strength. It is certain, however, that the men remaining at the camps will not be sufficient to form the sixteen national army divisions at full strength.

The Knitting Class will meet at the Woman's Club rooms on Sutton street this afternoon at 3 o'clock. Lessons free.

Of First District School Holds First Meeting of Year Yesterday Afternoon—Officers Elected.

The Parent-Teacher Association of the First District School held its first meeting of the year yesterday afternoon at the school and a record breaking crowd was in attendance. Plenty of enthusiasm was evidenced and there is not the least doubt that this year will see much good work accomplished by the association. Several new members were enrolled.

The following officers were elected for the ensuing year:  
President—Mrs. C. M. Hancock.  
Vice President—Mrs. Percy Lee.  
Secretary and Treasurer—Miss Emma Debold.

Plans were discussed for the opening of the penny lunch counter. It was decided that the P. T. A. would hold a grocery shower soon for the benefit of this penny lunch fund and that several kinds of entertainments would be given for the same cause as the penny lunch is very much needed in this district.

The co-operation of every parent and resident of this district is asked in order to make this the most progressive and useful P. T. A. in the city.
